March 18, 2024

Welcome back from spring break! I hope you are well rested and ready for the second half of the semester.

Student Resources for Job Searching

Post-completion success requires planning. This week a wave of hiring opportunities begins. There are resources and openings connected to the U.S. Secret Service, Montgomery Parks, and Streetwise Partners. Details can be found on the MC [recruitment page](#). It is not too early to plan for job fairs. Mark your calendars for in-person job fairs at the [Germantown Campus](#) on April 10, the [Takoma Park/Silver Spring Campus](#) on April 16, and the [Rockville Campus](#) on April 26. This Thursday, Holy Cross Health is featuring an [in-person hiring event](#) for nurses.

STEAM Opportunity for Faculty and Staff

While STEM disciplines are critical to technological innovation, the arts and humanities have important lessons as well. They are fields for deeper understanding and wider explorations of human experience. The strengths of STEM and arts and humanities are cojoined in a new collaboration called “STEAM,” for science, technology, engineering, *arts*, and mathematics. I hope you will consider [this session](#) on Friday to examine just how essential the arts and humanities are to ethical, compassionate approaches to advancing society. Faculty from STEAM fields will participate to create truly interdisciplinary dialogue.

Driving Innovation through Model Speakers

Tomorrow morning the College welcomes Rosie Allen-Herring for the first episode of the IDEAS series *Innovate to Drive Equitable Access and Success*. The event will be in person and [live streamed](#). Ms. Allen-Herring will share her career trajectory plus the valuable work of the United Way of the National Capital Area. There will be time for questions from the audience.

With Raptor Regards,

Dr. Jermaine F. Williams

President
