This program is intended to prepare students for careers in the building and construction trades. The General Education courses, in conjunction with specialized courses, provide a broad foundation and sharpen students' skills in preparation for entry into or advancement in today's workplace. This curriculum, following the HVAC track, provides training, skills and knowledge that prepares students for employment as HVAC technicians; or provides current building and construction professionals with essential HVAC technician skills. HVAC track students, in order to receive the AAS, must complete the E.P.A. 608 Certification Exam and pass at least one Industry Competency Exam (ICE).

This UNOFFICIAL document is for planning purposes ONLY and completion does not guarantee graduation.

See an [advisor](#) to submit an [Application for Graduation](#) the semester BEFORE you intend to graduate.

This degree is a career program and may not readily transfer to four year colleges/universities (except in special cases.) Visit [transfer planning](#) for more information.
