

Here are the steps to copy a Blackboard Course site (Watch Video)

<h3 style="color: blue;">How to Copy a Course</h3>	<h3 style="color: blue;">1. Go to the Control Panel Packages and Utilities Course Copy</h3>												
<p>As you are developing materials in Blackboard, you will need to copy materials from one course to another at some point. You may wish to copy one of the sites with your first and last name into a five-digit CRN site you will use with students. Or you may wish to copy the previous semester's 5-digit CRN site into a new semester's course to use with students.</p> <p>When is it safe to copy from my Development site (the site with my First and Last Name) to my live course (the site with a five-digit CRN)?</p> <p>It is safe to begin working in your delivery site <i>when you are sure your class will run and will not be canceled.</i></p> <p>To copy a Blackboard Course, you must enter the course that contains the course materials that you want to copy. This course might be your development site (first name, last name) or the previous semester's site.</p>	<ol style="list-style-type: none"> In the <i>Control Panel</i> (under the left-hand course tools menu), click the <i>Packages and Utilities</i> option to expand the menu.  Under <i>Packages and Utilities</i>, select the Course Copy option.  This opens the <i>Copy Course</i> Screen  												
<h3 style="color: blue;">2. SELECT COPY TYPE</h3>	<h3 style="color: blue;">3. SELECT COPY OPTIONS</h3>												
<h3 style="color: blue;">Select Copy Type</h3> <p>The Correct option is selected by default to Copy Materials into an Existing Course. You will be copying your course materials into a course created for you through Banner, which contains your students. Thus, the correct option is to Copy Course Materials into an Existing Course.</p> 	<h3 style="color: blue;">Select Copy Options</h3> <p>Under Select Copy Options, Click the Browse... button to browse for the course where you want to copy current course content.</p> <p>Note: Remember that you are looking for the new, blank course where you would like to copy your new content.</p> <p>When you click the Browse button, it will open your Courses List in a new window.</p>  <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th>Course ID</th> <th>Course Name</th> <th>Created</th> <th>Instructor Username</th> </tr> </thead> <tbody> <tr> <td>12345.201120</td> <td>201120-MK-101-12345</td> <td>Nov 17, 2011</td> <td>mknight24 mknight_teacher</td> </tr> <tr> <td>Michele_Knight_3</td> <td>Michele Knight 3</td> <td>Jan 6, 2011</td> <td>mknight_admin mknight24 bbuser007</td> </tr> </tbody> </table>	Course ID	Course Name	Created	Instructor Username	12345.201120	201120-MK-101-12345	Nov 17, 2011	mknight24 mknight_teacher	Michele_Knight_3	Michele Knight 3	Jan 6, 2011	mknight_admin mknight24 bbuser007

<p>7. Click Submit</p> <p>After completing all the steps above, click the submit button at the bottom of the screen.</p> <p>You will see a success message at the top of the screen indicating that your course is in the copy queue.</p>  	<p>8. Wait for Confirmation Email</p> <p><i>It may take a while for the site to copy if the site is large, so please refrain from copying the site more than once. Pressing copy more than once will create a messy blackboard site with duplicated content and menu items.</i></p> <p><i>When your site has finished copying, you will receive an email indicating that the site was copied at your Montgomery College email address.</i></p> <p><i>This email will have the subject line, Course Copy process complete.</i></p>  <p>An example of the email is shown below.</p> 
<p>9. Begin working in your new course, and remove any duplicate items</p> <p><i>After receiving your Course Copy email, you may begin working on the new course you just copied and ignore the older site.</i></p> <p><i>When you first enter the course that you have copied, You will have two syllabus links on your left-hand course menu. Having two syllabus links is a typical quirk of the course copy feature.</i></p> <p><i>One of the links will contain your actual course syllabus; the other syllabus link will be empty.</i></p> <p><i>You will need to check both syllabus links, as there is no way to be sure which link is empty on the course menu.</i></p>	<p>Begin working in your new course, and remove any duplicate items (continued)</p> <p>Once you have determined which Syllabus is empty, you may delete the empty syllabus link.</p> <p>To remove the extra Syllabus: Click the action link to the right of the Syllabus, and click delete on the menu that appears.</p>
